

Did the
Holidays
Go to
Your
Hips?

 **VASER[®]**
LIPO

Burgess Plastic Surgery is pleased to introduce

VASER® LipoSelection with Dream State Sedation.

This proven technology is a gentle alternative to traditional liposuction and may have quicker recovery times that can get you back to your regular routine.

Beginning this month, we will be able to provide this technique as an **in-office procedure** for good candidates with minimal to moderate fat removal.

In February, we will be able to provide this technique in the hospital for moderate to major fat removal or in conjunction with other major cosmetic surgeries.

As a thank you to our established patients, we are offering **\$1000 off** of **VASER® LipoSelection** if performed by **March 31, 2010**.

For new patients, we are offering a **\$600 discount** during the same time frame.

**The Holidays May Have Gone to Your Hips
But The Spring is Looking Better.**

Call 503-699-6464 or contact consult@BurgessPlasticSurgery.com to schedule your appointment.

Keep in mind that it takes time to schedule procedures, so don't wait until the last minute to call.

Visit www.VASER.com to learn more.
